### **EM Completes Innovative 40,000L Temporary SS in Rikuzen-Takata**

The ExxonMobil Japan Group (head office: Minato-ku, Tokyo; Lead Country Manager: P. P. Ducom) has completed construction of a temporary service station equipped with ISO containers in the city of Rikuzen-Takata, Iwate Prefecture, which suffered extensive damage in the Great East Japan Earthquake.

Drawing on the Group's strength in engineering and fabrication, the innovative service station design utilizes ISO-certified tanks, which are normally used for transporting products such as specialty chemicals. Two tanks, one for gasoline and one for diesel, have been installed at the facility. Each tank has a capacity of 20,000 liters, which in the case of gasoline is enough fuel for 500 passenger vehicles. ExxonMobil Japan Group handed the facility over to the city of Rikuzen-Takata for local oil retailers to operate on a commercial basis starting today (April 22).

The ExxonMobil Japan Group will continue working to support the recovery and restoration of the quake-stricken region by providing this temporary SS design to other towns who need it, and by helping to ensure a stable supply of fuel.

###

#### **About the ExxonMobil Japan Group**

The ExxonMobil Japan Group comprises ExxonMobil Yugen Kaisha and its related companies and subsidiaries including TonenGeneral Sekiyu K.K., and is a major manufacturer and marketer in Japan of petroleum fuels, lubricants and petrochemicals. Elements of the Group began operations in Japan in 1893. ExxonMobil Yugen Kaisha is a 100% indirect subsidiary of Exxon Mobil Corporation of the United States. TonenGeneral Sekiyu K.K., an affiliate of ExxonMobil Yugen Kaisha, which holds 50.02 percent of its shares, is listed on the 1st Section of the Tokyo Stock Exchange.
